CONTENTS

Analytical Properties of the Molière Simultaneous Distribution between the Deflection Angle and the Lateral Displacement 1
T. Nakatsuka and K. Okei

Charged Particle Transport Calculation with GPU 8
K. Okei and T. Nakatsuka

Comparison of Several Monte Carlo Codes with Electron Backscattering Experiments 14
Y. Kirihara, Y. Namito, H. Hirayama, and H. Iwase

Design Study for Monochromatic X-Ray Tube Using EGS5 22
S. Yoshida

Estimation of Radioactivity Produced in Cooling Water for High Energy Electron Linear Accelerator Facility 25
T. Itoha and Y. Asano

Evaluation for Non-Uniformity Effect of a Large Spherical Chamber Using EGS5 Code 30
Y. Urno, T. Kurosawa, Y. Sato, T. Yamada, A. Yunki, and Y. Hino

Evaluation of Counting Efficiency of Whole-Body Counter Using Voxel Phantom 34
M. Takahashi, S. Kinase, and R. Kramer

Monte Carlo Simulation CT 41
S. Kitou, K. Hanai, and Y. Obata

Development and Validation of a Monte Carlo Modeling of Millennium MLC 47
Y. Ishihara, T. Yamamoto, Y. Miyake, T. Mizowaki, Y. Narita, S. Yano, T. Teshima, and M. Hiraoka

Investigation for the calculation of absolute dose exposed from a brachy therapy source with Monte Carlo simulation 54
H. Shibata, K. Tabushi, K. Narihisa, Y. Aoyama, and Y. Obata

The Accuracy of Calculation Using Radiation Treatment Planning System with Titanium in a Human Body 61

Improvement of a Specially Designed Shielding Plate for Intraoperative Electron Beam Radiotherapy of Breast Cancer 67
T. Oshima, Y. Aoyama, T. Shimozato, K. Tabushi, and Y. Obata
Comparison of PDD Curves Obtained by Therapeutic Films and Calculated by EGS5

The Estimation of Dose Distribution of MRI-LINAC with EGS4
H. Itoh, Y. Narita, Y. Iwashita, M. Hiraoka, and A. Noda

Photon Energy Spectra in Water Phantom: Monte Carlo Simulation Study with EGS5
S. Miyajima and K. Shinsho

Investigation on Photon Energy Response of Amorphous Silicon EPID Using a Monte Carlo Method
Y. Fujita, H. Saitoh, and A. Myojyama

Evaluation of Patient Dose in Cerebral Angiography Examinations
Y. Emoto and S. Koyama

Validation of Point Dosimetry in Organ Dose Estimation in Anthropomorphic Phantom
T. Nakagawa and S. Koyama

Measurement of Monochromatic Radiation Using a Si Detector and Comparison with EGS5 Simulations
Y. Kirihara, Y. Namito, M. Hagiwara, and H. Hirayama
