

How to Access "Warning Area"

Contact Information

Radiation Reception Radiation Reception Building
TEL: 3500 (ex.), 029-864-5496, E-mail: kek3500@ml.post.kek.jp
Business hours: 8:30-12:00 and 13:00-18:30 on weekdays

What is Warning Area?

"Warning Areas" are located at the periphery of "Radiation Controlled Areas" where possible radiation level exceeds the criteria concerning the law dose limit. Radiation level in "Warning Area" can be higher than "General Area," but not exceed the criteria.

Entrance into Warning Area

In order to exclude general public and non-radiation workers, "Warning Area" is surrounded by a fence with locked entrances. Sign indicating "Warning Area" can be seen at the entrances.

Radiation Exposure Level

The estimated radiation exposure accompanying the work does not exceed 0.1 mSv (10 mrem). (Under the current law, the radiation exposure limit for ordinary persons is 0.25 mSv (25 mrem) over one quarter.) Therefore, **the dosimeter does not have to be worn during the work.**

Procedure for General Public and Non-Radiation Workers

General public and non-radiation workers may enter "Warning Area" after reporting **affiliations and names of all workers** to the regional radiation-safety officer by submitting **Radiation-Work Form No. 3 for tour** or **Radiation-Work Form No. 2 for working**.

<Submit the Form to>

Warning Areas of PF Light Source Building in Section 4	:PF Radiation Reception Desk
Warning Areas in Section 5	:AR Radiation Reception Desk
All Warning Areas including the above areas	:Radiation Reception

<Areas requiring general safety permission>

Warning Areas **except for** Fuji and Tsukuba of SuperKEKB, PF Light Source Building, and STF

Procedure for Radiation Workers

In the case that a card is not required to enter the area

A Radiation worker may **freely enter** "Warning Area" by borrowing a key.

In the case that a card is required to enter the area

The radiation worker enters "Warning Area" after reporting to the regional radiation-safety officer by submitting **Radiation-Work Form No. 3 for tour** or **Radiation-Work Form No. 2 for working**.
